Review of 4Q 2016 Performance between Actual and Forecast Results

Net Property Income

S\$ m

- Primarily due to contribution from the sheltered warehouse in Chongxian Port Investment from October 2016 and favourable exchange rate movement
- Chongxian Port Investment enjoyed a 4.4% increase in income due to conversion of 24,108 sq m of storage yard space to warehouse space

Finance Income

S\$ m

- In line with Manager's decision not to proceed with using the security deposits to invest in PRC corporate bonds after taking into account the current volatile PRC corporate bond market
- Decision by Manager to use the security deposits to part-finance the acquisition of an asset located in the PRC from an unrelated third party vendor

Distributable Income

S\$ m

- Due mainly to the abovementioned factors as well as lower management fees and other trust expenses
